

## **Future Foundation Wellness Group Sample Initial Contact Presentation**

- I recently found out about an amazing company from Japan that is just now expanding into the US, Europe, and the rest of the world
- They have a machine that actually splits water - and creates the healthiest water in the world, both for inside and outside of the body. In Japan, where this is an actual licensed medical device, they call it miracle water, and the results people are getting from it are nothing short of just that - a miracle!!
- This water is going to provide people with an opportunity to live much healthier and longer lives, with bodies much more free of disease -
- It is a 34 year old, debt-free company doing over \$350 M / year.
- The market for this machine in the US appears to be many times larger than what they are doing in Japan and the company is just getting started here.
- It will allow many people to make some extremely serious money in the marketing of these machines in the US and beyond
- I need to get together with you as soon as possible and let you see this for yourself. When is the soonest we can get together? Would Thurs. at 7:00 pm or Friday at 9:00 am be better for you?
